MINIMIZER PRODUCTS:

TOUGH. DURABLE. LONG-LASTING.

There are countless ways Minimizer™ Products stand out from the competition. With nearly four decades of first-hand knowledge and experience gained from producing the original Poly Fenders & Bracket Systems, as well as Floor Mats, Tool Boxes, Fast Flaps™, and Slick Plates, it is no surprise that most customers describe our brand using just two words...

THE BEST.

Tested & Tortured™ is more than just a slogan, it is the blue print used to guarantee each and every product Minimizer ships out the door will meet the demands and expectations of the truck and the driver. Each is constructed utilizing only the highest quality materials. Our proprietary formulas and thermoforming processes result in products that will withstand the daily abuse of demanding job-sites and unforgiving roads, all while being backed by the best warranty in the industry - the Minimizer Lifetime Guarantee!

With updated industry safety measures creating front-page news, our brand demands that Minimizer products are the standard to which others are compared. Because owner/operators and fleets are more conscientious about weight, as well as spray and debris control, Minimizer engineers never stop testing our products. Our process is ongoing to ensure that we stay ahead of an industry that is constantly evolving, and we recognize safety, performance, and proper equipment maintenance have a direct connection with the bottom line.

Minimizer products combine durability, weight-savings, and a legacy few others can match. We take pride in our products the same way drivers take pride in their trucks. This is why so many install Minimizer Products because they only want the best.

Need more proof? Head to WWW.MINIMIZER.COM and listen to actual drivers and fleet owners talk about their Minimizer products. We suspect that once you purchase your own, you will be a fan, too.

MINIMIZER MATERIAL OPTIONS

Minimizer offers a large variety of semi-truck fender styles, colors and material options. With an unmatched reputation of quality, durability, and style; our fenders will enhance your truck's appearance and increase it's lifespan while protecting precious loads and cargo. Our industry leading fender line is manufactured using proprietary composite materials and thermoformed using exclusive technology along with over 35 years of firsthand industry and manufacturing expertise. When dented or crushed Minimizer fenders bounce back into their original shape. The composite materials are extremely durable, impervious to salt and corrosion, and have been tested to withstand temperatures ranging from -100° F to 197° F.

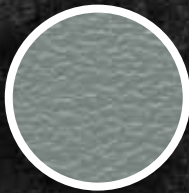

MINIMIZER STANDARD MATERIAL OPTIONS will NEVER NEED PAINT, NEVER FADE, NEVER RUST, AND NEVER CRACK! The color is molded throughout the sheet to hide the the daily abuse of demanding jobsites and unforgiving roads!

MINIMIZER UNIQUE MATERIAL OPTIONS go head-to-head with "shiny metal & custom fiberglass fenders" that will only weigh your truck down and inevitably bend, rust and break! Get the remarkable shine and reflection of metal fenders or the custom aftermarket look, combined with the superior durability of all Minimizer products!

ORIGINAL PLASTIC BOLT-ON KIT

THE BEST FENDER BRACKET SYSTEMS IN THE INDUSTRY
HERE'S WHY: **ULTIMATE DURABILITY**

- DESIGNED FOR FLEXIBILITY TO SOFTEN ROAD VIBRATION
- 100% COMPOSITE MATERIAL WILL NEVER STRESS CRACK
- NEVER NEEDS PAINT & WILL NEVER RUST OR CORRODE

The competition gives you metal brackets with composite fenders...
WHY? We do it right, you get a nearly indestructible bracket with your Minimizer Fender!

You need to have the right tools for the trade, right? You know that already, you bought Minimizer Fenders! What would nearly indestructible fenders be without the industry's toughest and most reliable brackets to match?

You need brackets that won't bend out of shape with the slightest tap or break and do nothing but cost you hard earned money. At Minimizer our Fenders & Bracket Systems are Guaranteed for Life! That's good math for you! How can Minimizer make such an offer? It's simple, we have total confidence in the design and performance of our fenders and bracket kits.

Minimizer Brackets are designed for strength and they have remarkable staying power - when bumped or bent they "give" slightly and spring back into shape without dents or paint chips. These brackets will last as long as you own your Minimizer Fenders - we guarantee it!

Available in Standard Black, Mirror Finish, Carbon Fiber, and Liquid Platinum!

MADE IN

PADDLE BRACKET BOLT-ON KIT

THE BEST FENDER BRACKET SYSTEMS IN THE INDUSTRY
SLEEK NEW LOOK: **SAME DURABILITY**

- EASIER INSTALLATION AND REDUCES SUSPENSION BULK
- 100% COMPOSITE MATERIAL WILL NEVER STRESS CRACK
- NEVER NEEDS PAINT & WILL NEVER RUST OR CORRODE

The competition gives you metal brackets with composite fenders...
WHY? We do it right, you get a nearly indestructible bracket with your Minimizer Fender!

We thought long and hard about how to improve our bracket systems. We set out to duplicate the durability and ability to absorb impact of the original Standard Plastic Bolt-on Bracket System with a low profile custom look.

The Minimizer Paddle Bracket System is designed to be mounted directly to the frame which eliminates the need to use spacers in most cases. The sleek & compact profile allows the bracket arm to fit lower on the frame rail if needed, creating more clearance between the frame and the fifth wheel plate. All of the fastening hardware is hidden beneath the fender creating a more streamlined and aesthetically pleasing look.

But don't let it's good looks fool you, all of Minimizer Bracket Systems have been Tested and Tortured to ensure that it will meet the performance expectations of demanding jobsites and unforgiving roads.

All Minimizer Fender Bracket System Installation Kits come with the applicable mounting hardware for proper installation:

- Bracket Arm Assembly
- Plastic Center Bracket Assembly (Plastic Arm mounted to Steel Angle)
- Plastic Angle/Height Support
- Mounting Flanges, Mounting Bolts, and Spacers
- All Bolts, Washers, and Nuts

LIFT AXLES BRACKETS

Minimizer Lift Axle brackets are designed specifically for 5" round lift axles. The bracket kit clamps on to the axle allowing the fender to raise and lower with the axle.

- Easy bolt-on design for a quick installation.
- Available for single wheel applications.
- Lift Axle Fenders are also available.
- Fenders are molded for a specific tire size.
- Please reference Part #10001441 (BSHORTLIFTAX)

VISIT WWW.MINIMIZER.COM FOR MORE INFORMATION ON LIFT AXLE BRACKET OPTIONS

STEERABLE BRACKETS

Minimizer Steerable axle brackets bolt on using existing holes on the brake assembly allowing the fender to raise, lower and steer with the wheel.

- Designed specifically for steerable axles.
- Easy bolt-on design for a quick installation.
- Over 20 different kits are available depending on the style and brand of your axle.
- Steerable Axle Fenders are also available.
- Call 1-800-248-3855 for part numbers and availability.

VISIT WWW.MINIMIZER.COM FOR MORE INFORMATION ON STEERABLE AXLE BRACKET OPTIONS

MINIMIZER PRODUCTS: **TOOL BOXES**

Minimizer Tool Boxes - like our fenders – are tough enough for the most demanding work sites and weather. Made of solid roto-molded 100% composite materials our tool box will never rust, crack or need paint. Don't let the scale fool you – these boxes are no lightweights. They're tougher than metal boxes weighing 10 times more: and the ¾" gutter and Seal Tight™ weather stripping means Minimizer Tool Boxes are nearly weather-proof. Our tool boxes mount easily to most trucks in minutes. Heavy-duty hardware keeps the tool box as secure as a safe.

The "Vector T Latch" is number one in durability. It comes with a (standard) built in cylinder lock and two keys.

"Super Springs" provide for a self-lifting door on the chest style boxes.

With a ¾" gutter and "Seal Tight" weather stripping – weather-tight.

The heavy-duty universal mounting brackets keep your tool box secure.

Poly Chest Box:

3 standard sizes:

MINIMIZER PRODUCTS:

FAST FLAPS™

Fast Flaps™ mud flap hangers allow mud flaps to release without causing damage to the flap - hanger bracket - or equipment! Reinstalling the mud flap only takes seconds using a standard screwdriver. Fast Flaps™ secure mud flaps using clamping force and without creating any holes in the flap or sacrificing strength. It takes more than 500 lbs of pressure to detach a mud flap from the stainless heat tempered spring steel bar, and the result doesn't damage the flap. Designed for a minimum mud flap thickness of 1/4", not advised for use with 3/16" mud flaps.

BACKED BY MINIMIZER'S LIFETIME WARRANTY!

DURABLE - All stainless steel clamp construction, heat tempered to spring steel for ultimate durability.

SECURE - Mud flap fastens in with over 500 lbs of spring steel clamping force.

SAVE MONEY - No damage, no shop labor, no down time and no DOT fines due to missing or destroyed mud flaps!

PROVEN PRODUCT - Used on owner operator, fleet, municipal and DOT vehicles throughout North America!

INDUSTRY APPLICATIONS - For both on-road and off-road trucking including dump trucks, cement mixers, asphalt, block, logging, roll-off, and garbage trucks. Also great for freight haulers that often experience mud flap damage.

Over-The-Road Use - Shown on a standard 53' van trailer

MINIMIZER PRODUCTS:

5TH WHEEL SLICK PLATE

**LOSE THE
GREASE!**

MADE IN

THE USA

- The Minimizer Slick Plate's non-stick polymer surface eliminates the need to grease the 5th wheel plate.
- The plate protects all critical areas from wear and tear from use or the elements, without compromising the surface of the 5th wheel plate.
- Kits come complete with pre-drilled polyethylene plate, ram bars and all necessary mounting hardware.
- Minimizer 5 year warranty.
- Many makes and models available including: Holland, Fontaine, Jost, ASF Simplex, Reese, & Robin Industries.

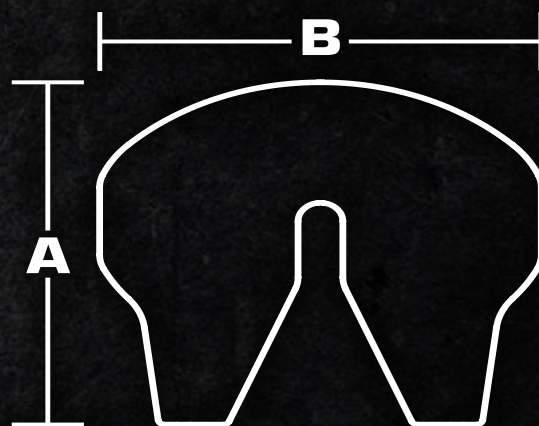

***Warning: DO NOT use a Minimizer 5th Wheel Slick Plate, Trailer Slick Plate, Slick Disk, or a Mfg Low Lube 5th Wheel Topplate in conjunction with one another. Doing so could cause a coupling failure. DO NOT INSTALL the Trailer Slick Plate if it extends past the front edge of the trailer or the upper bolster plate.**

NOT SURE WHICH STYLE WILL FIT?

Use the height and width dimensions to help!

MINIMIZER PRODUCTS:

TRAILER SLICK PLATE

**LOSE THE
GREASE!**

MADE IN

THE USA

The Minimizer Trailer Slick Plates promote a cleaner environment by removing the need for greasing the trailer coupler plate and is a good alternative when you cannot use the Minimizer 5TH Wheel Slick Plate*.

- Reduces wear on 5th wheels & Upper Coupler.
- Eliminates the need to grease.
- Installs on existing and new trailers.
- Increases steer tire life.
- Easier trailer handling for drivers.
- A strong, self-lubricating solid polymer plate.
- Designed for frequent hook and drop applications.
- Available in many different sizes.

***Warning: DO NOT use a Minimizer 5th Wheel Slick Plate, Trailer Slick Plate, Slick Disk, or a Mfg Low Lube 5th Wheel Topplate in conjunction with one another. Doing so could cause a coupling failure. DO NOT INSTALL the Trailer Slick Plate if it extends past the front edge of the trailer or the upper bolster plate.**

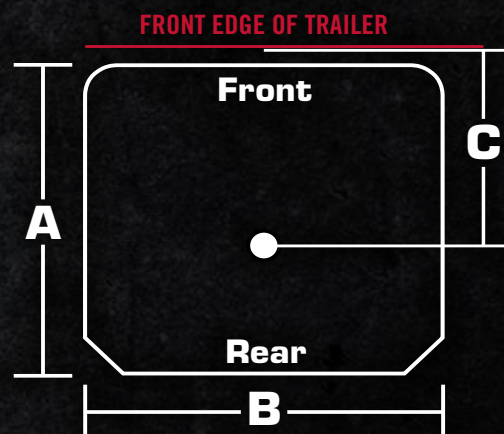

NOT SURE WHICH STYLE WILL FIT?

Use the height, width, and king pin setback dimensions to help!

A: Height

B: Width

C: KP Setback

KP Setback = Measurement from the front edge of the trailer to the center of the king pin.

MINIMIZER PRODUCTS:
SLICK DISK

SLICK. JUST LIKE THE REST OF OUR PRODUCTS.

- Installs in minutes to protect the 5th wheel against friction and wear that can be caused by normal towing.
- Nearly eliminates the need for greasing the face of the 5th wheel plate.
- Slick Disk Part #10004454 (PACCSLICK32) & Slick Disk Clip Part #10004455 (# PACCSLICKCLIP)

***Warning: DO NOT use a Minimizer 5th Wheel Slick Plate, Trailer Slick Plate, Slick Disk, or a Mfg Low Lube 5th Wheel Topplate in conjunction with one another. Doing so could cause a coupling failure. DO NOT INSTALL the Trailer Slick Plate if it extends past the front edge of the trailer or the upper bolster plate.**

LED LIGHTS

4" ROUND LED CONSISTS OF STOP, TURN & TAIL LIGHTS

Our 12 diode LED lights are brighter and therefore safer than any incandescent light on the market. No more "burned out" tail lights... if one of the 12 diodes should ever fail, 11 are still on the job. This standard 4" model is made to perfectly fit the openings of our fender light box option.

Included with your LED light purchase is our black poly mounting grommet. The grommet keeps your light secure and fits perfectly into our fender openings.

Kit also includes 6 chrome bezel trim pieces. (As shown in picture)

- Please reference Part# 10004622 (Legacy Part# 102574)

MINIMIZER PRODUCTS:

CUSTOM MOLDED FLOOR MATS

Whether it is the mud off your boots or your morning coffee, Minimizer Custom Molded Floor Mats keep the cab floors of all major OEM makes and models protected from the daily abuses of demanding jobsites and endless miles on the road.

The engineers at Minimizer use cutting edge technology to scan the interior measurements and angles of each specific make and model semi cab to ensure an exact fit. A retention hook mounted to the base of the stick shift or the driver side floor to keep your floor mats in place. Protect your investment and reduce in cab corrosion, potentially saving you a major headache down the road.

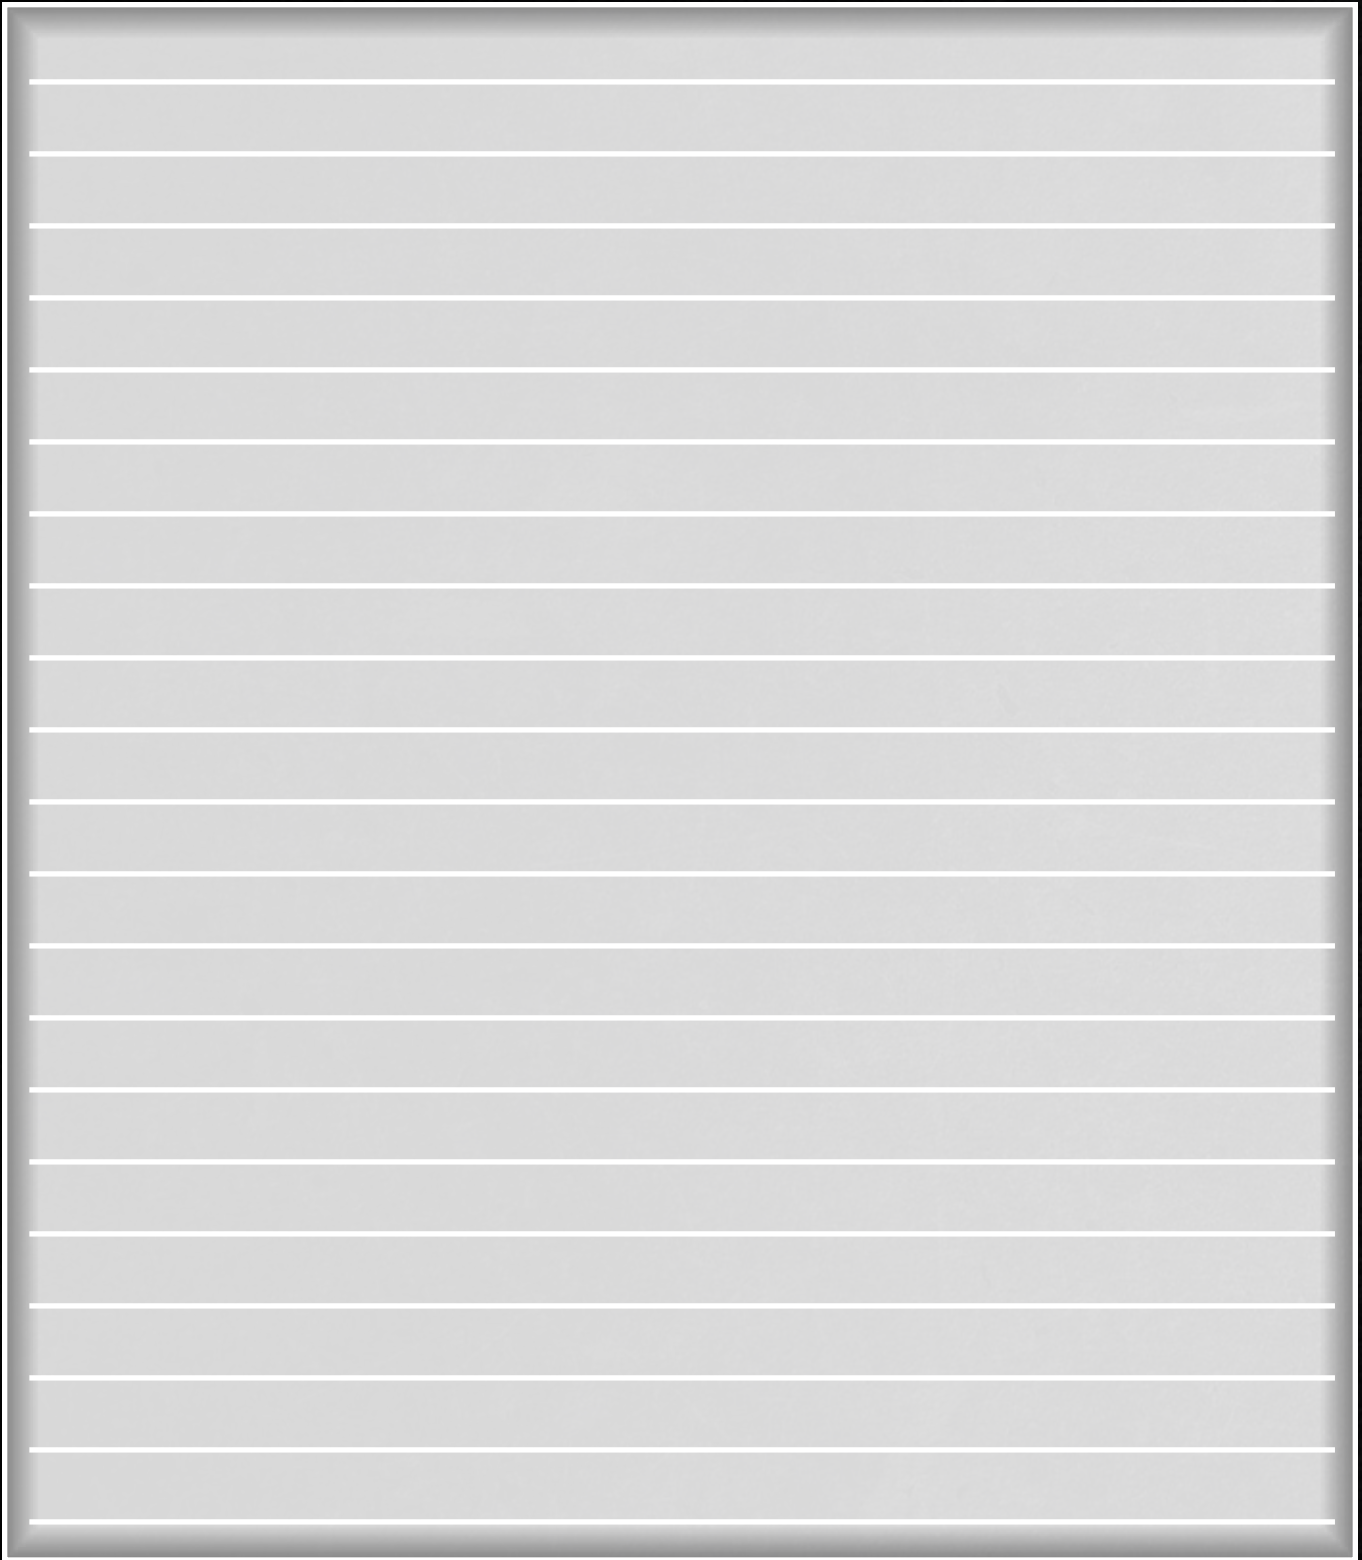

Made out of a proprietary blend of heavy duty thermoplastic, the textured surface will ensure your boots always get a solid grip. The ribbed design channels fluids, road salt, and other debris from interfering with drivers feet.

Our 2 and 3 piece tray systems were designed to be removed easily for quick cleaning. In a matter of seconds you can have your Minimizer Floor Mats rinsed off and reinstalled so you can get your truck back on the road.

Backed by our Lifetime Manufacturer's Warranty, Minimizer Floor Mats are designed to hold up to the daily abuses of the heavy duty trucking industry and will not break or crack under extreme conditions.

NOTES

A large rectangular area with a light gray background and horizontal white lines, intended for writing notes. The lines are evenly spaced and cover the majority of the page's width and height.

A large rectangular area with a light gray background and horizontal white lines, resembling a writing template or a form for text entry. The lines are evenly spaced and extend across the width of the rectangle. The rectangle is set against a dark, textured background.
